

## REACH DIRECTIVE DECLARATION

PP Control & Automation Ltd are customer focused and as a result do our utmost to ensure customer requirements are met. Where customers request compliance to REACH Reg. (EC) 1907 / 2006 (*Restriction, Evaluation and Authorization of Chemicals*) as part of the contract we work closely with our suppliers and customers to ensure that products and designs do not contain any of the substances listed on the "Candidates List" in quantities higher than 0.1%. The "Candidates List" or "List of Substances of Very High Concern" can be found on the ECHA website.

As you will appreciate the Candidates List is constantly increasing, it originally contained less than 20 substances, in July 2019 four additions were made bringing the total up to 201.

Our approach has been to determine the REACH status of our top suppliers by volume of items delivered. Unfortunately, it has become clear that some components do contain substances included on the "Candidates List".
