

PP Control and Automation Limited is committed to ensuring that our effect upon the environment is minimized to the lowest possible level.

This shall be achieved by:

- Implementing an integrated management system that meets the requirements of ISO 14001:2015
- Establishing and regularly reviewing environmental objectives
- Preventing pollution
- Complying with all relevant legislation and regulations
- Efficient use of raw materials to minimise waste and recycling where possible
- Identifying and reducing environmental effects which arise from our activities
- Ensuring that we purchase environmentally friendly products whenever possible
- Communicating this policy to our employees and any other relevant interested parties
